

HTML5 Assignment

- In this assignment, you will be required to create a complete HTML5 web page using the provided CSS file.
- This presentation will guide you through the steps in creating this web page.

The final result

Creating the structure of the web page

- In order to build the web page, the core HTML elements of any web page must be created:
 - DOCTYPE
 - Html
 - Head
 - body

- A reference of the CSS StyleSheet must then be included in the head element
- Additionally, a wrapper div element is used to contain the contents of the web page

Starting with HTML5

- Inside the wrapper, we will start the HTML5 structure of the page:
 - The header element will contain the elements located at the top of the page
 - The section (for courses) element will contain the primary content of the web page
 - The aside element will display the right-hand side column of our page
 - The footer element will contain to bottom part of the page

- The courses section will be comprised of 2 separate article elements

The HTML5 basic structure result

Completing the header

- Inside the header, we will create 2 main components:
 - An h1 header
 - A nav element

The page menu

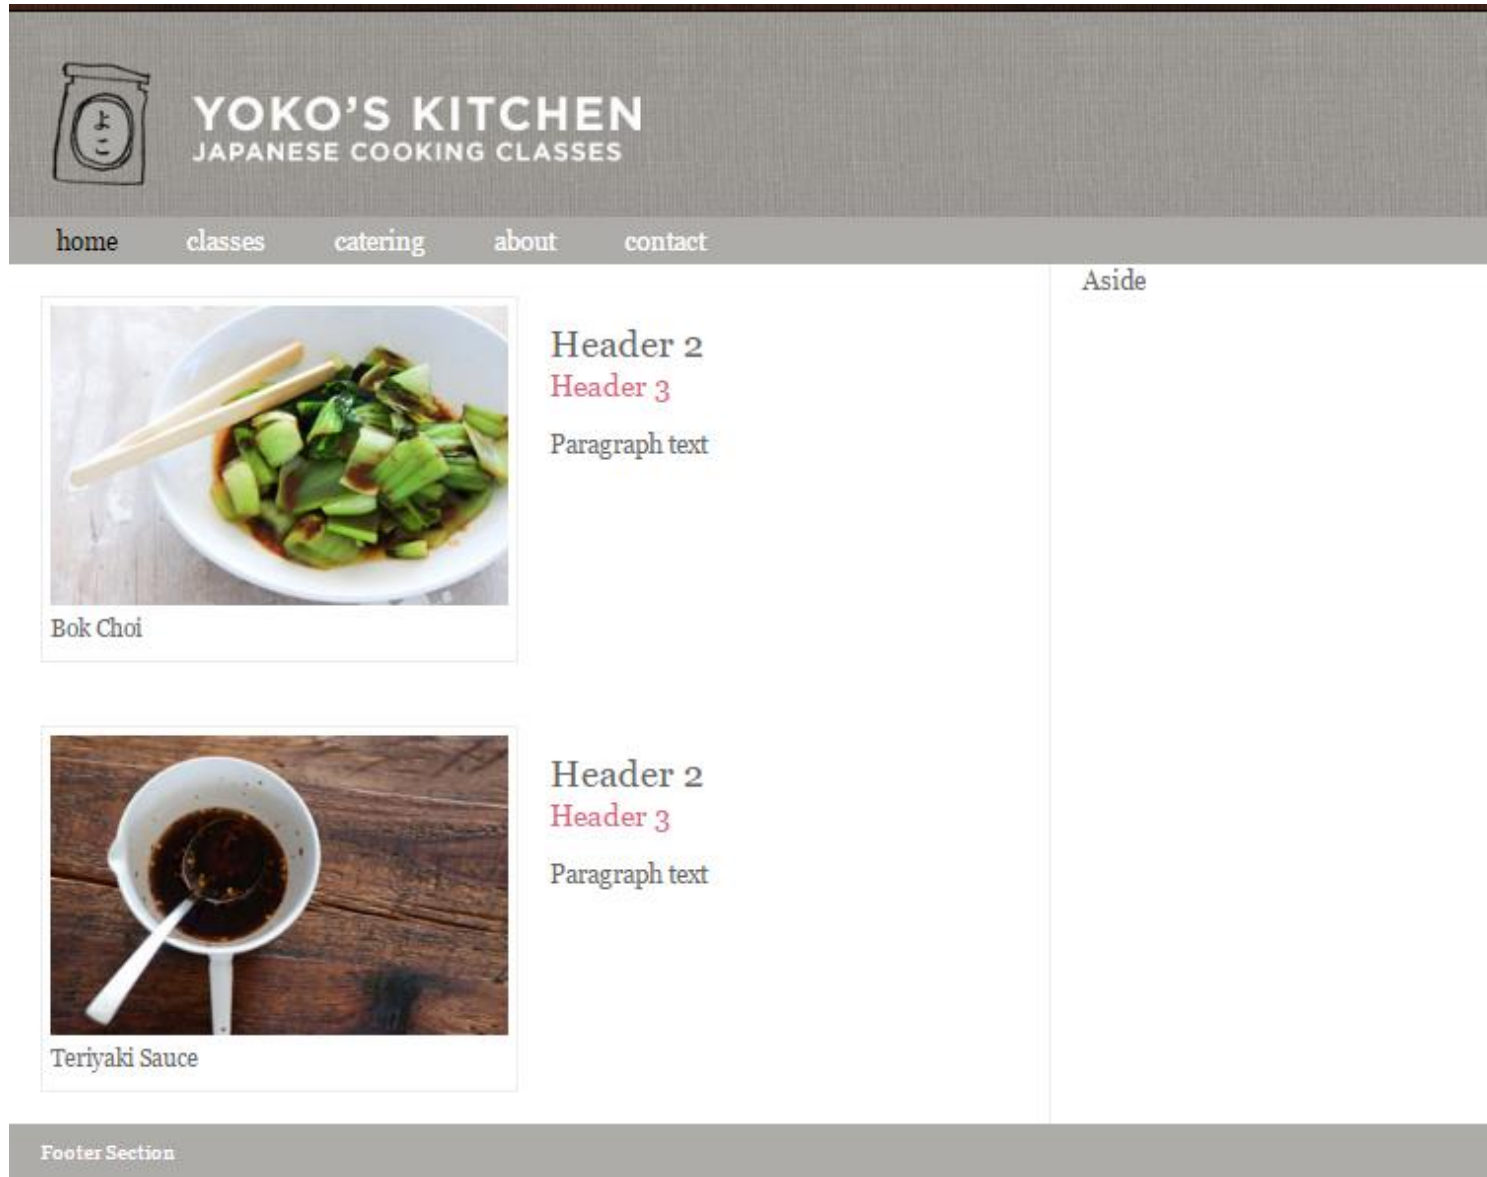

- The menu will be contained in the nav element using an unordered list (ul)
- Each list item will be entered as a link (a) element

The page with the menu

- Next, we will need to structure the main content and structure of our page
- Each article will contain a figure element composed of 2 elements
 - Img
 - Figcaption
- Additionally, each article will contain a header group (hgroup) composed of 2 headers
 - H2
 - H3
- As well as a paragraph (p) for the article text

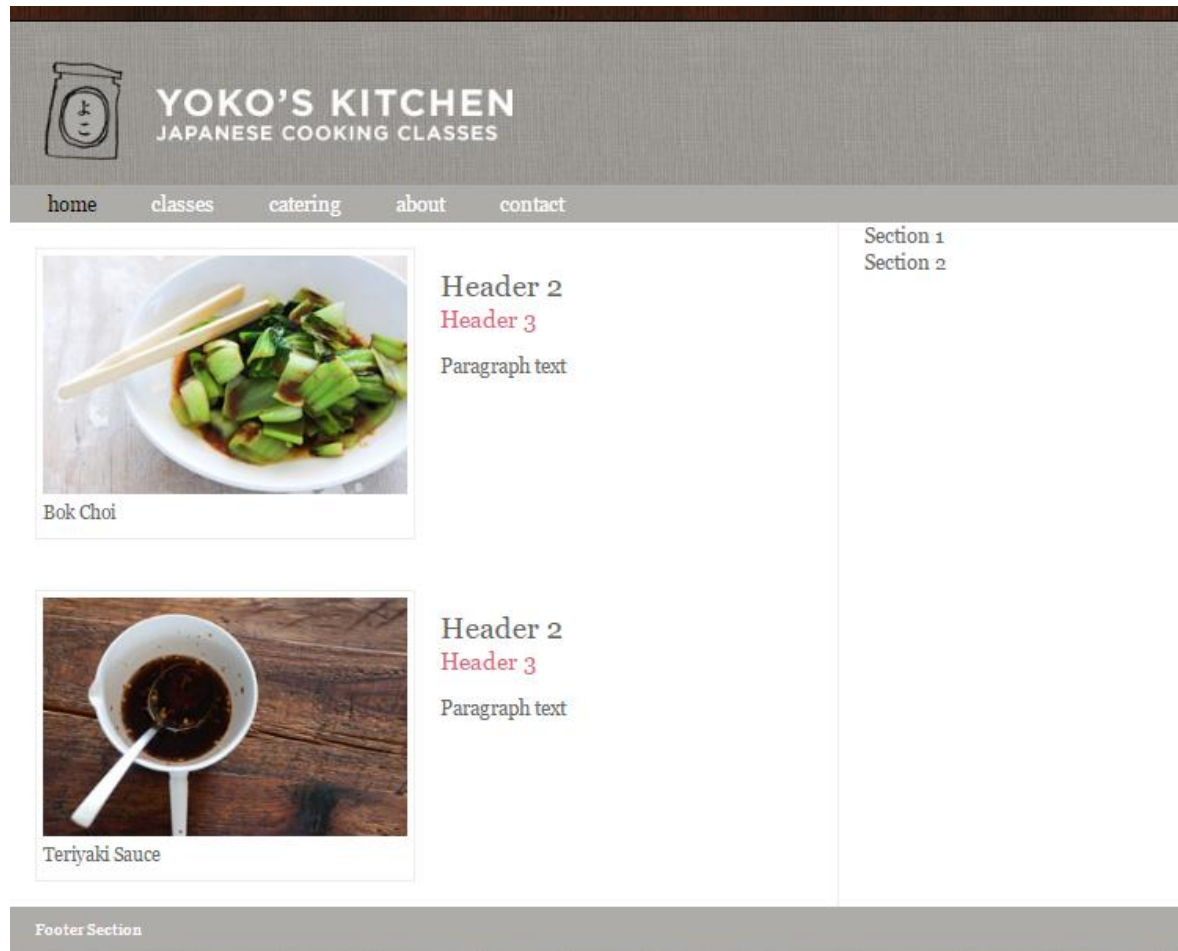

The primary content

Structuring the sidebar

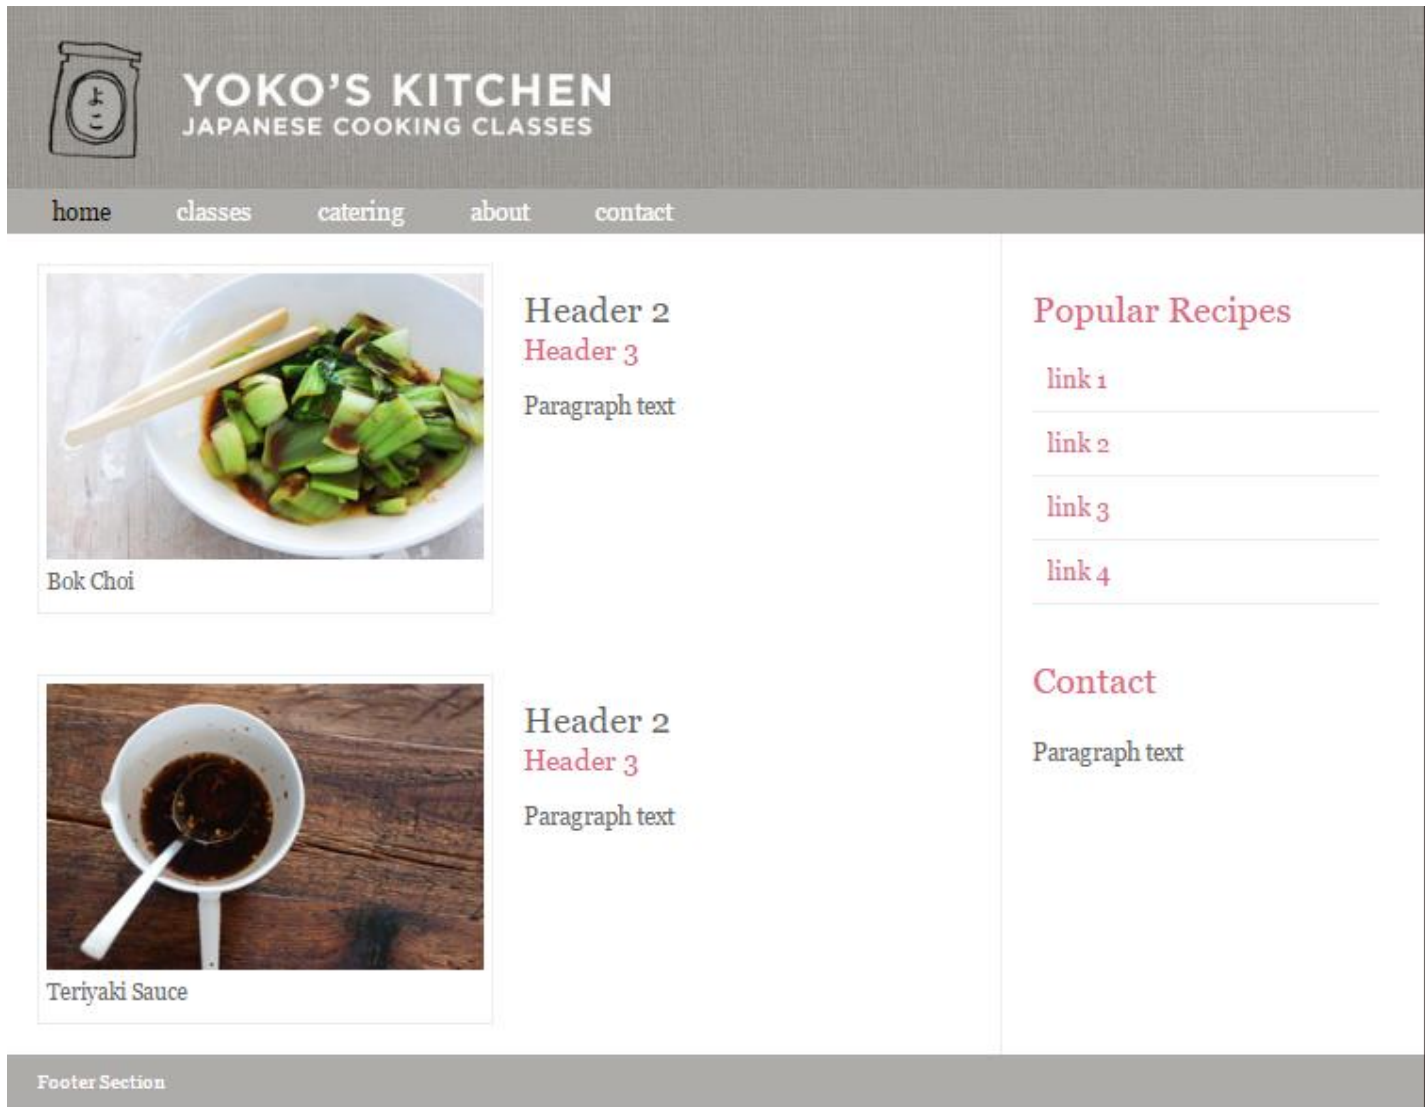

- The sidebar will be composed of 2 different sections:
 - popular-recipes
 - contact-details

Including the sidebar

- The popular recipes will have 2 types of elements:
 - An h2 header as the title of the section
 - A group of links (a)
- The contact details will also have 2 different elements:
 - An h2 header as the title of the section
 - A paragraph (p) with the contact information details

Completing the web page structure

Including the content text

YOKO'S KITCHEN

JAPANESE COOKING CLASSES
